Eskimo Not Dainty Feeder.

The Eskimo is not particular about the cut of his meat. He eats everything physically possible of a reindeer or fish or polar bear (and what he does not eat he wears or makes into houses or tools). Particularly does he seem to relish the frozen stomach of the reindeer. This stomach, full of finely chewed reindeer moss, he freezes solid and stores away, according to Doctor Marquis, until he is vitamine hungry, when a piece is sliced off, thawed out and eaten as a rare delicacy.

Hospital Auxiliary Organized.

The organization of Newport's Auxiliary to the Orleans County Memorial Hospital was effected at its first meeting held in the Armory, Wednesday evening. Similar meetings are being held in every town in Orleans county, where auxiliaries will be organized, each a unit in the general plan to make the new hospital a county institution.

In each town there is to be appointed at least one trustee who will work with this citizens' committee of each community known as an auxiliary which will be a liaison organization between the hospital and its own town. They will form the connecting links between the institution and its various maintaining sources. Their work will be not only to assist in its support but also to see that their people share to its greatest extent the benefits to be derived, keeping the hospital association always in close contact with their people.

A set of by-laws has been prepared by which each local chapter of the auxiliary is to be governed so that they may be unified. In this purpose "to aid and assist in the maintenance of the hospital" is clearly defined. They call for a President, Vice President, Secretary, Treasurer, and executive committee in each local organization, and the duties of each officer are outlined, as well as the general plan of every chapter.

This is a call to loyal citizens to join the ranks and help. A large amount of support, advice and assistance of various kinds must be given by its men members, while the women will find that much sewing goods goes with a hospital.

From now on Newport's Auxiliary is going to keep the city humming. Plenty of work, lots of jolly times, and real accomplishment are its slogans. Though the organization is yet so young that no definite plans can be made, a big bazaar and ball are in the air for the fall months.

Last week's meeting was attended by only a small number of the main promoters and beyond the necessary election of officers, all important business was postponed until a real representation of its members might be present. Mrs. Walter Hinman presided as chairman and the following officers were elected: president, Mrs. Philip C. Blanchard; vice president, Mrs. W. E. C. Shepard; secretary, Mrs. Frank E. Sabourin; treasurer, Mrs. Delos Buck. An executive committee of three members was chosen, Miss Bessie Morrill, Mrs. Bernard Savage and Mrs. Elton McGowan.

The next meeting will be held this evening at seven thirty o'clock in the Council Room at the Armory. There is work for all and non-attendance at the meetings will not keep you out of office. Come and get an intimate knowledge of our Auxiliary.

FORD CAR DOES STUNTS

Gives Exhibition of Ramming, Skidding and Climbing Post Saturday

Saturday noon two autos came together near the traffic post at the entrance of Coventry street, but no serious damage resulted. A Canadian car from Rock Island No. 57307 filled with passengers came up Coventry street and in making Man around the traffic post, was struck by a light Ford truck of Warren Drown's. The Ford was being operated by Collin Lake of Saxtons River, father of Mrs. Drown who is visiting here.

Mr. Lake claimed the brakes failed to work when he applied them and the Ford struck into the left rear wheel, when the cars came to a stop both were headed west and the cement street plainly showed signs of the cars skidding. The damage to the Canadian car was slight. The Ford got some jammed fenders and the steering apparatus was put out of commission, which developed when Mr. Lake started off with the car. Instead of following the course directed by the driver it took a form of a circle and on its way round tried to climb the traffic post. The car was then seized by several men and although very stubborn it was marched down Coventry street.

Dog Mothers Baby Chicks.

A Collie dog which of her own accord has adopted two orphan chicks, is reported from British Columbia. One rainy day the wife went out to take the chicks in from the rain, and found them cuddled up in the fur of the dog. When they are kept in a tin in the house the dog rests her head on the tin, and when a cloth is put over the tin, she pushes it away and puts her nose in the tin. When they are in the yard she guards them constantly and when she leaves them they chirp quite pitifully.

SEIZURE AT LYNDONVILLE

Two Newport Men Lose Car and Hoof

Deputy United States Marshall, Roy P. Skinner was called to St. Johnsbury Wednesday of last week in connection with a seizure of liquor from Newport parties. During the night, Tuesday, James Kelley, a Federal Prohibition agent of Vermont, apprehended a car near Lyndonville which was found to contain 48 quarts of whiskey and gin. The occupants of the car were Harold Melver and W. H. Sawyer. The men were taken to St. Johnsbury and lodged in the Caledonia county jail, from which they were released Friday night. At their appearance before Commissioner Arthur Graves, Melver was held under \$800 bail for the Federal Grand jury and Sawyer's

bail was fixed at \$300. It is reported that the car in which the liquor was being transported was a Buick and owned by Melver. Both car and liquor were seized by Federal officers. Sawyer hailed from Newport but for several years has resided at St. Johnsbury. Recently he has been taking the place of strikers at Newport as an electrician.

On Big Scale.
The Yellowstone remains the largest of our national parks and contains the greatest variety of scenic wonders. Everything within its more than 2,000,000 acres is on a gigantic scale. Distances are great; canyons are of terrifying depth; mountains tower to monstrous heights. The geysers, the "paint pots," the hot springs, are of never-ending interest to tourists.

Every 10th Sale Given Away

Friday and Saturday, Sept. 22-23

It's like this, we were rumaging through our stock the other day looking for trouble and we found it, for through some oversight a stock of underwear was packed away last year and forgotten and the same day we received an invoice for an order we had placed for September delivery. So you can see what kind of a fix we're in. We've got underwear enough to outfit all the ladies in Newport for a North Pole Expedition and we can't afford to carry it. So we are marking it below what we can buy it for today for it has got to move for we need the money to buy more goods and we need the room to store soft coal and cord wood. So we are going to give you your money back on every 10th sale and give you a price that is below cost as an inducement to you to replenish your private stock. Just remember we are not offering you an antiquated and shop-worn stock, every garment is fresh and saleable and we'll lose money on every piece you purchase. Keep in mind that if yours makes the lucky 10th, your purchase costs you nothing as the amount will be refunded at the office. We don't know of course how long these will last so it might be well to come early for there's going to be a rush. Everybody is invited.
